

# Proposed Change in Constitution

## Name Change

From: HOME IS WHERE WE LIVE-LIFE CYCLES PROJECT SOCIETY

To: LifeCycles Project Society

## Change of Purpose

From:

1. To create community gardens, and restore green spaces for wildlife, on public lands or lands donated to the organization from charitable organizations for public use by the community as a whole; to enhance the urban environment, create habitat, and encourage biodiversity.
2. To provide youth with training; specifically in site restoration, composting, organic gardening and producing organic vegetables for Soup Kitchen, Community Kitchen Programs and/or other charitable organizations from public community gardens. As well, the youth will teach the methods they have learned to the general public, and do hands on degraded public site clean-up and restoration in public municipal, park and donated land stewardship programs that enhance the environment and encourage biodiversity in our urban community.

To:

1. To cultivate community health by connecting people to the food they eat and the land it comes from.
2. To support people on Coast Salish Territories and collaborate with people everywhere to grow, access and eat local food in ways that foster diversity and enhance the urban environment.
